

## APPENDIX R

### Maintenance and Protection of Traffic

**Memorandum:** Maintenance and Protection of Traffic  
**From:** Justin Worek  
**Subject:** NJDOT Mercer County Route 634 (Parkway Avenue), Scotch Road to Parkside Avenue (MP 2.20 – MP 4.11) Road Diet Concept Development Study  
**Date:** December 13, 2018

---

The re-striping and road diet conceptual alternatives will be performed while utilizing daily lane closings, lane shifts, or flagging operations (alternating traffic) and are to be in accordance with the NJDOT Standard Traffic Control Details.

The “ROUNDABOUTS” alternatives will either require complex traffic control and staging plans to be developed or a detour evaluation/plan developed and finalized in PE that account for the design (geometric, drainage, etc.) of each roundabout option.
