

Structuretech

ENGINEERING

Overview

Structuretech is a multi-services structural and civil engineering firm that provides comprehensive engineering services for a wide range of projects of every size and complexity. With a proven track record, excellent technical engineering skills and in-depth knowledge of state-of-the-art design standards, we deliver the best, most resilient, and efficient structures for any type of building in the most challenging conditions.

Core Competencies

► Structural Engineering

- ▮ Structural Analysis and Design
- ▮ Footing and Foundation Design
- ▮ Wind and Seismic Load Analysis
- ▮ 3D Modeling and CAD
- ▮ Design of Steel, Wood and Concrete Structures

► Civil Engineering

- ▮ Site Investigations
- ▮ Site Plans
- ▮ Soil Erosion and Sediment Control
- ▮ Water and Sewer System Design
- ▮ Land Planning

► Forensic Engineering

- ▮ Advanced Structural Analysis
- ▮ Blast Analysis Design and Retrofit
- ▮ Diagnostics and Testing Consulting
- ▮ Investigations and Assessment
- ▮ Structural Strengthening
- ▮ Storm Damage Assessments

► Civil Engineering

- ▮ Site Investigations
- ▮ Site Plans
- ▮ Soil Erosion and Sediment Control
- ▮ Water and Sewer System Design
- ▮ Land Planning
